18°C

TASTE

This is a long cycle variety that is very resistant to drought and disease. Located on poor land with small grain limestone, giving this wine its exotic touch of elegance and concentration. Purple, red in colour with a very velvety texture. Its exotic aroma with hints of violets, forest fruit, creamy, 'milk of figs', spicy and mineral. In the palate it has a strong taste, whilst being creamy, refreshing and complex with a lasting aftertaste.

PACKING

Box containing 6 bottles.
